

Natalie Sosa

Natalie Sosa is a licensed hearing instrument dispenser and has been with Texas ENT and Allergy since 2007. She is licensed to complete comprehensive hearing evaluations and dispense hearing instruments to individuals over the age of 18 in the state of Texas. She graduated from the University of Colorado in 2006 with a Bachelors of Science in Speech, Language, and Hearing Sciences which is where she discovered her passion for helping people hear. During her training, she interned and volunteered with many different organizations including the Marion Downs Hearing Center, Hands and Voices, and the Center for Language and Learning of Colorado. Natalie has also volunteered her time living overseas in Lima, Peru while working with children who are deaf and hard of hearing to bring the joy of hearing technology to disadvantaged areas.

An avid traveler, her desire to share this technology reaches across many cultures and places around the globe. Patient advocacy is an essential part of her personal philosophy which is why she feels it so important that people are given an opportunity to learn about their hearing options. When not at work she enjoys singing in the Brazos Valley Chorale and road trips with her husband and three children.
